David Sabalete Rodríguez

Senior Frontend Developer at LoveToKnow Media Spain
Greater Barcelona Metropolitan Area

Summary

I am a Programmer Analyst whose goal is to develop as a Ninja
Front End Developer. With a degree in Industrial Technical Engineer,
I quickly focused on the programming field and especially web-
related technologies. I have worked for a long time using Java
and HTML, CSS and Javascript. Then I started with Javascript
frameworks like MeteorJS, BackboneJS, React and lastly VueJS
which I fell in love with

I have been involved in the programming world since 2000 in
different languages and frameworks. Languages: JAVA, HTML5,
CSS3, JavaScript, TypeScript, ASP, PHP, Python.
Frameworks: React / React Native and Redux, AngularJS (with
Javascript and TypeScript), Meteor, Backbone, VueJS, NuxtJS
Tools: Yeoman (a javascript scaffolding tool), Grunt, Gulp, Webpack.
Backend frameworks: Spring (Java), Struts (Java), CakePHP.

Throughout my professional career I've developed an interest in
the analysis and design of applications based on the use of design
patterns. With regard to project management methodologies, I know
Scrum and Kanban.

Experience

LoveToKnow Media Spain
Senior Frontend Developer
November 2019 - Present (1 year 2 months)
